* The analysis of cosmetically treated hair is carried out at the explicit request of the patient (usually not permitted for MPA).

Sufficient amount of hair must be sampled (approximately three pencil-thick strands distributed between the A and B samples). Residual material and the B sample are archived according to applicable guidelines and are available for further analysis. If an insufficient amount of hair is submitted, there is a possibility that the sample may be completely consumed during the initial analysis, making any further analysis impossible.

Additional information (e.g.: intake of alcohol, drugs and medication)

Explanations for Request Form 4

Please complete the provided form in full (front and back) and label the form, the sample, and any additional documents with a barcode from the same series. Please do not use copies. Additional forms can be ordered (tel. +49 5222 8076-429; email: versand@laborkrone.de).

You can order frequently requested test combinations in individual profiles. These may also include requests that are not listed on the provided request form. Explanations regarding the exact scope of the listed analyses can be obtained from the **Toxicology Field Service** (tel. +49 5222 8076-123; email: toxikologie@laborkrone.de).

Data protection information

The entity responsible for data processing is MVZ Labor Krone eGmbH, Siemensstraße 40, 32105 Bad Salzuflen. You can contact our data protection officer at the following email address: datenschutz@laborkrone.de. The legal basis for processing your data includes the fulfillment of contracts, the protection of legitimate interests, your consent, and compliance with legal obligations. Data processing is carried out to perform the requested laboratory analyses. The data processed includes personal information such as name, date of birth, gender, address, health insurance details, billing type, bank details (if applicable), medical history data, (suspected) diagnosis, and the parameters to be examined that have been transmitted to us.

We receive your data via the laboratory request form sent by your doctor, clinic, or laboratory with the relevant details. Legal retention periods apply to the storage of your data (at least 10 years). If you wish to exercise your right to access, deletion, correction, objection, or restriction of processing, please contact us via email (datenschutz@laborkrone.de). Consent can be revoked at any time with future effect.

You also have the right to file a complaint with a supervisory authority. For full details on data processing, your rights, and obligations, please refer to the detailed privacy policy on our website: <https://www.laborkrone.de/datenschutzerklaerung/>

Consent and assumption of costs for laboratory analysis

- I agree to the collection of my sample and the transfer of my data to the laboratory for analysis.
- The voluntary information I have provided regarding alcohol, drug, and medication use is correct.
- I have verified that the barcode numbers on the sample and this form match.
- For hair analyses: The information provided regarding the cosmetic treatment of my hair is correct.
- The examination of cosmetically treated hair is carried out at my explicit request.
- The analysis costs will be covered directly by me or billed to the submitting institution, as specified on the front of this request form.
- Laboratory results are provided in a summarized format for better clarity. You can request a detailed breakdown of the testing procedure (including the timeline and standard operating procedures used) at any time by providing the order number.
- For another recipient to receive a copy of the results, you must release MVZ Labor Krone eGmbH from its confidentiality obligation towards the recipient (doctor/person/institution).
- These recipients are listed on the front side under "Report Copy." By signing, you explicitly agree to the release of confidentiality towards the specified recipients.
- The confidentiality waiver granted here can be revoked at any time without providing reasons, with effect for the future. However, revocation does not affect the lawfulness of data processing carried out before the revocation. You can submit the revocation in writing (MVZ Labor Krone eGmbH, Siemensstraße 40, 32105 Bad Salzuflen), via email (datenschutz@laborkrone.de), or by fax (+49 5222 8076-163).
