

Instructions for obtaining your COVID-19 test result

Dear patient,

There are **two options** for accessing your **online corona test result**:

1 COVID-19 test outcome

→ Please visit the webpage of the COVID test-information

<https://covid19.labor-daten.de>

→ Fill in your **12-digit number** (see example above), which you can find on your **barcode**

→ In the next step, please fill in your **date of birth**

→ Click on »**Befund prüfen**« (check result)

Your test result will be available **48 hours** after your test. Please ensure the **date of the result** corresponds with your test date.

Caution, your test result is only valid on this app for **3 weeks**.

2 Download of detailed labreport

To download the full laboratory report of your COVID-19 test you need a personalized **QR-Code number** on the information sheet of the **Corona-warning-app**.

You get this information sheet at your testing station. **Caution:** Please check that **your name is printed on top** of the information sheet.

→ Download the **My-lab-result-app** or visit the webpage <https://mein-laborergebnis.de>

→ Scan the **QR-Code in the app** or fill in your personal **QR-Code number (GUID)**

→ Click on »**Find the result**«

→ Fill in your **date of birth**

→ Confirm your entry

The **pdf file** of your test result will open and can be downloaded.

If your result is positive, avoid contact with other people. Your healthcare authority will receive a copy of your test result and will contact you with further instructions.

If you are feeling unwell, please contact your physician or the on-call service **116 117**.

Stay healthy,

Your Labor Krone
